FROM DUSK UNTIL DAWN

And every hour in between, CCECA is dedicated to powering our communities and improving lives in the towns we call home. *That's been our sole purpose since 1938.*

- ✓ *The leaders of your Co-op are committed to maintaining safe, reliable power to your home while keeping costs affordable to all members.*
- ✓ *The cost of materials, maintenance, and even labor costs have made electric cooperatives across the country look at their rates, making adjustments to bring greater balance and long-term financial stability.*
- ✓ *After carefully considering the results of a cost-of-service study, the board of directors has determined it is in the best interest of the Co-op and its members to restructure rates to adequately address the increasing cost of doing business.*

WHAT TO EXPECT

*Effective Feb. 10, 2023:
A typical residential member will see an increase of \$5 on the base charge and \$0.033 per kilowatt-hour on the energy charge.*

YOUR BILLING STATEMENT

To lessen the impact, your board of directors elected to make changes in two phases, with a second \$5 increase on the base charge in 2024. Below are billing statement examples for a typical residential consumer before and after the rate change.

OLD BILL

*Note: PCRF may fluctuate monthly

Service Period From	To	# of Days	Meter Readings Previous	Present	Multi	Metered kWh
09/13/22	10/14/22	31	29944	31126	1	1182
